### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1 – 38 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:
3. DiStefano in the U. S. patent 5,518,964 substantially discloses the invention as claimed. However, DiStefano does not disclose, teaches or suggests applying a compressive force to the juxtaposed assemblies so *as to compress the first resilient element*. The resilient component of DiStefano does not get compressed at all during the step of applying the compressive force to the juxtaposed assemblies. The resilient element of DiStefano just covers one of the juxtaposed assemblies to protect it from heat.
4. With respect to claim 38, the method of DiStefano would not produce the leads recited in claim 1, part (d) for example.
5. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
